## TITLE XX SOCIAL SERVICES BLOCK GRANT REPORT

July 1, 2005 - June 30, 2006

Since October 1981, states have received Title XX Social Services Block Grant funds. This report is intended to provide information to the residents of Nevada regarding the services to be funded, intent of the services and the eligibility categories of individuals to be served with Nevada's Title XX Social Services Block Grant funds.

The information contained in this report provides a summary of the planned usage of Title XX funds for the one-year period beginning July 1, 2005. The Department of Health and Human Services may modify the eligibility standards, types of services provided, and funding levels referenced in this report in order to address changing priorities.

Title XX funds in Nevada are distributed to State and non-profit agencies for a variety of Title XX services. The planned distribution of funds to Divisions within the State of Nevada Department of Health and Human Services can be found in Section F, and the non-profit agency distribution is found in Section G.

### **A. GOALS**

Title XX Services will be directed toward one or more of the following five national goals:

- I. Achieving or maintaining economic self-support to prevent, reduce or eliminate dependency;
- II. Achieving or maintaining self-sufficiency, including reduction or prevention of dependency;
- III. Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, rehabilitating or reuniting families;
- IV. Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care or other forms of less intensive care; and
- V. Securing referral or admission for institutional care when other forms of care are not appropriate or providing services to individuals in institutions.

### **B. ELIGIBILITY FOR SERVICE**

In order to receive services funded by Title XX, all persons must:

1. Request the service;
2. Be determined to need the service by the provider agency; and
3. Meet the income eligibility standards, if any, established for each service.

Because funds for social services are extremely limited and needs are great, agencies providing Title XX funded services may establish priority systems, waiting lists or limits on the length or amount of services that an individual may receive. This will insure that agencies serve those most in need.

Services will be available without charge with the exception of the following agencies: Committee to Aid Abused Women, Division of Child and Family Services, The Ridge House, Vitality Center, and

Westcare. The donation or fees for services are determined by criteria established by each of the agencies. Individuals will not be denied service if they are unable to pay the requested fees.

**C. INCOME STANDARDS**

Two basic income eligibility standards will be used by agencies providing Title XX services:

1. Services are provided to individuals and families whose household income is at or below 200% of poverty; and
2. Services are provided to individuals and families without regard to income.

Agencies must select which income standard they will utilize prior to each funding period. (See section E for a list of agency income standards). The Division for Aging Services has elected to utilize alternative income standards (110% poverty standard for its homemaker service program) based upon the availability of resources and the projected need for service.

The following table shows maximum monthly income at 100%, 110% and 200% of the Federal Poverty Standards for the 48 Contiguous States and D.C. established by the U.S. Department of Health and Human Services (DHHS) in the Federal Register, Vol. 70, No. 33, February 18, 2005, pp. 8373-8375. These standards will be revised in February 2006.
