

APHSA 2012 National Policy Forum

June 3–5, 2012

Hyatt Regency Washington on Capitol Hill
Washington, DC

The **2012 Policy Forum** will focus on the policy analysis and recommendations from the *Pathways: The Opportunities Ahead for Human Services* document currently being drafted by APHSA that will guide the association's legislative priorities for years to come.

It also will feature activities in Congress, a review of the latest political situation, and examine the work being done by the National Workgroup on Integration, APHSA's committee working on helping states with incorporating human services into their health exchanges.

Don't miss this opportunity to get a firsthand look at what is happening in Congress, the Administration, and how the campaigns are addressing key issues.

See You There
